Highlands Council Launches New Web Site

Chester, NJ- The New Jersey Highlands Council today launched a new website at www.highlands.state.nj.us. The website, developed to be easy to use, will provide up-to-date information on Council meetings, reports, and opportunities for public input.

"The site provides a wealth of information for anyone who may be interested in the Highlands Act and the work of the Highlands Council says Chairman John Weingart. "It contains a wide variety of reference materials-- maps, Highlands rules and regulations and notice of upcoming events."

The website is a further step in Council's goal of being transparent in its operations. The website will feature agendas and supporting documents relevant to upcoming meetings as well as minutes and summary reports on meetings that have already occurred.

"The web site will provide the public accurate, easy to access information about the Highlands Act and the Council's activities," according to Executive Director Dante Di Pirro. "Equally importantly, the public will have the ability to provide direct input to the Council and staff via this website. This is a continuation of Council's commitment to on-going dialogue with the public on Highlands' matters."
